

The Software Solution For Hospital Call Lists

April 2010 - Person On Call LLC is pleased to announce the release of Version 4.2 of the Person On Call™ software, with numerous enhancements since the Version 4.1 release in March 2009, including:

- Customizable Notes – All notes can be displayed in the color and font size of your choice
- Department Display Toggle – Department/Specialty display can be suppressed when the Department is not on call or when no one is on call for the Department
- Email/Electronic Messages – The subject line and message body of email and other electronic communications originating from Person On Call now can include text of your choice
- Call List Display Customizable – The Telephone and Speed Dial headings can be removed from the Call List display if desired
- Clinical Population Database – Enhanced various aspects of the personnel detail screens – adding pull down menus, dynamic list generation, etc.

Person On Call greatly improves the production, distribution, and maintenance of your ER call and all hospital call lists. It effectively manages complex call lists, easily handles and instantly distributes unplanned changes, offers simple yet powerful archival and reporting tools, and accommodates ever-increasing regulatory requirements.
